Summary

Backend-focused Full Stack Developer and final-year B.Tech Information Technology student graduating May 2027, with project experience building and deploying applications using Python (Flask, FastAPI), Node.js, Express.js, React, and MongoDB. Skilled in REST API design, JWT authentication, role-based access control, and database modeling, with PostgreSQL also included in my technical toolkit. Seeking a Backend Engineer role to apply strong problem-solving and server-side development skills in a production environment.

Education

Parul University — Waghodia, Gujarat, India
Bachelor of Technology in Information Technology — *Jun 2024 – May 2027*

Parul University — Waghodia, Gujarat, India
Diploma in Information Technology — *Jun 2021 – May 2024*

Projects

TrueHire – Job Simulation Platform — Nov 2025 – Sep 2026
React, Node.js, Express.js, MongoDB, JWT — *Live Demo | GitHub*

- Built a full-stack platform where students practice coding through job-style tasks and recruiters evaluate their technical skills; React/Vite frontend, Express REST API, deployed on Render
- Implemented JWT authentication (bcrypt password hashing, Bearer tokens, 24-hour expiry) and role-based access control separating student and recruiter permissions
- Designed REST endpoints for registration, login, and protected profile operations with request validation and consistent HTTP status codes
- Modeled data with Mongoose schemas, unique email constraints, and authorization middleware

Shopping Guide – Local Product Discovery — Jul 2023 – Feb 2024
Python, Flask, MongoDB, Jinja2 — *Live Demo | GitHub*

- Built a Flask application that helps customers find products at nearby shops, compare prices and stock, and filter results by distance before visiting in person
- Implemented location-based search using the Haversine formula to rank nearby shops
- Developed a shop-owner dashboard to register stores and manage product details, pricing, and stock levels

Experience

Graphic Design Intern — Apr 2023 – Jun 2023
Advance Electronic System — *Vadodara, Gujarat, India*

- Produced marketing graphics and branded layouts using Adobe Photoshop, Illustrator, Figma, and Canva
- Turned project requirements into visual designs and revised them through stakeholder feedback

Technical Skills

Languages: Python, JavaScript, SQL, HTML5, CSS3
Backend & APIs: Flask, FastAPI, Node.js, Express.js, REST API design, JWT authentication
Databases: PostgreSQL, MongoDB, Mongoose
Frontend: React, Tailwind CSS, Material UI, Jinja2
Tools: Git, GitHub, Postman, VS Code, Render, Vercel
Concepts: Object-Oriented Programming, Role-Based Access Control, Data Structures and Algorithms

Certifications

Machine Learning using Python | *Infosys Springboard* — Aug – Sep 2026
Computer Networks and Internet Protocol | *NPTEL, IIT Kharagpur* — Jan – Apr 2025
Web Development Training (HTML, CSS, JavaScript, React, DBMS) | *Internshala Trainings* — Aug – Oct 2022
